

MASTER YOUR VCE

TSFX MASTER CLASSES

UNIT 2, 3 & 4

2020

TSFX Master Classes. The Smartest Way to Learn.

Our Master Classes are specialised tuition classes designed to help students reach their **full potential**, be that a **two-grade improvement** or the elite **A and A+** scores.

This program **builds on** the teaching that takes place in schools, giving students the opportunity to revise, reinforce and extend on key skills/concepts, and to develop strong problem-solving and exam techniques.

Students may complete the Master Classes in the comfort of their home (**online version**) or at the University of Melbourne (**face-to-face version**) on a weekly basis. Every student will also receive access to recordings of their enrolled classes.

TSFX Master Classes.

The ultimate learning experience & the most in-depth preparation for your SACs & exams.

Out-Rank Your State-Wide Peers.

When you attend our Master Classes, you will:

- Revise and **extend** on the work covered at school to VCAA exam standard.
- **Master concepts** that students find **difficult** and that have been **poorly** answered in past exams.
- Learn techniques that will help you to **confidently answer** the different types of questions that appear in the exams.
- Work through **a huge collection** of questions that are likely to appear in SACs and exams.
- Systematically prepare for the challenging **analysis-style** problems and learn how to dissect and interpret complex exam questions.
- Master the **tricks and traps** that could appear in the exams.
- Learn how to set out answers in line with the **marking schemes** used in the VCE exams.
- Regularly revise important concepts so you don't need to **waste valuable time** re-learning topics before your SACs and exams.

My students often say that there was at least 20 marks worth of questions on the exam that they can thank TSFX for, and they feel they have a real edge on SACs.

Teacher – St Leonard's College

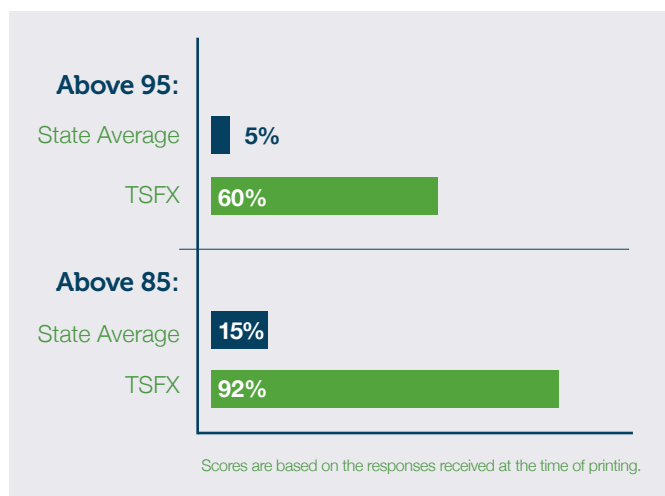

The Numbers Don't Lie.

If you're determined to get the best possible results, our Master Classes won't disappoint!

Year after year, students attending our Master Classes achieve **amazing results**. As an example, **85%** of our 2019 students achieved an ATAR of **90 or above**, even though most had previously received average or below average marks!

Year	Average ATAR	Median ATAR
2019	95.17	95.65
2018	93.23	95.80
2017	94.43	95.75
2016	93.29	95.00
2015	93.56	96.85
2014	93.90	94.80
2013	93.56	94.85
2012	95.40	96.10
2011	95.60	96.96

One-On-One Tuition as You Need It.

Need help with homework or SAC preparation?

Need clarification on what was covered in class?

Are you looking for a different perspective, or are you wanting to bridge gaps in your knowledge?

Whatever the reason, our tutors are available before and after class to give you the **one-one-one** attention you need. As the **best recent graduates of the VCE**, our tutors know first-hand what you're going through, and are keen to help you reach your full potential in the VCE.

Learn from the Best.

To ensure you receive **every possible advantage** in the VCE, our Master Classes are prepared and delivered by hand-picked, **qualified, experienced VCE teachers** from top ranking schools. Our teachers include authors of VCE textbooks, writers and **markers of your VCE** exams, as well as **leading experts** in their subject fields. Their wealth of experience is priceless.

The Master Classes cover every aspect of a subject's study design and are conducted in a relaxed and friendly atmosphere – conditions that are vital to **maximise learning**. Our teachers are highly dedicated, supportive and understanding; additional reasons why our students perform so well.

“*TSFX is unmatched in the quality of notes and presentation.*”

Student – Werribee Secondary College

The Elephant in the Room.

Can a recent VCE graduate prepare students for their VCE assessments to the same standard as a qualified experienced VCE teacher can?

To give you the best chance of success, we use qualified VCE teachers and VCE exam markers – not unqualified, inexperienced university students.

A high ATAR or study score **does not equip** a recent VCE graduate with the knowledge that's required to prepare students for their SACs and exams. As an example, a student who obtained a study score of 45 in Mathematical Methods **only** answered about **79%** of Exam 2 **correctly**! Recent VCE graduates can't teach you how and where marks are awarded, which terms or statements must be included in exam responses, and alternate answers that would also receive full marks. This information is restricted to VCE exam markers and can make a **huge difference** to your VCE marks.

Knowing how the exams are marked also gives VCE exam markers the ability to guide you through the exam preparation process in the quickest and most effective way. You'll spend your time revising what really matters, and you can't get that kind of guidance from recent high school graduates who have no teaching experience, and who **don't have access** to the detailed insights our teachers provide.

Not only do the teachers presenting our Master Classes have years of experience teaching the VCE in **top performing schools** and marking or writing the VCE exams, they're also trained to teach **different types of learners** – a skill that rarely evolves without the right type of instruction and experience. **Experience** is the best teacher, and an important asset at this **end-game stage** of the VCE.

Note: Most of the university students who present VCE lectures and tuition classes **have not** received formal instruction in most of the topics they're teaching. These students graduated before many VCE subjects underwent **major changes** to their Study Design and are self-taught, using **limited information** that doesn't cover the scope required for the higher VCE marks.

Unparalleled A+ Course Notes.

You'll receive detailed and comprehensive **A+ notes** that include every key concept that could be examined, clear and concise explanations, fully worked examples

with step-by-step instructions, and a large collection of potential exam questions – saving you **countless hours** in study time.

Recorded Classes.

As we **record our classes** you won't ever fall behind if you miss a week. You can also watch a class as many times as it takes for you to feel confident with what was covered. Furthermore, when it comes to the exams, our recorded classes offer a **powerful way** of revising for these important assessments.

And for those students who prefer face-to-face instruction, if you find a topic difficult or would like to prepare for a SAC in a **fast and effective** way, you can attend multiple classes in a subject across a single week, at **no additional charge**.

All the Tools You Need to Ace the VCE.

When you attend our Master Classes, you'll also:

- Receive a **huge collection** of exam papers and worked solutions to practise as you complete each topic at school.
- Sit a **trial exam** under exam conditions. You will then listen to experienced VCE exam markers work through each question, reviewing critical theory and highlighting VCAA marking schemes.
- Work through **mock SACs** written by experienced VCE teachers.
- Receive access to the resources available on our **unique and exclusive** online portal. Thousands of pages of notes, tests, worksheets, pracs, sample A+ essays and projects – everything you need to score the highest possible marks.
- **Get FREE entry** into a variety of classes and lectures that are designed to enhance SAC and exam marks.

"You guys really are the best in the business." Student – Mazenod College

Venue. Dates. Times. Subjects. Fees.

Venue: The University of Melbourne (Elizabeth Blackburn School of Sciences, Parkville Campus)

Dates: Friday 24 July – Sunday 25 October 2020

Classes: 2.5 hours per enrolled subject per week for 12 weeks

Times: **Fridays:** 5:00pm – 7:30pm

Weekends: 9:00am – 11:30am, 12:15pm – 2:45pm, 3:30pm – 6:00pm

Subjects: **Unit 2:** Chemistry & Mathematical Methods

Unit 3: Biology, Chemistry & Mathematical Methods

Unit 4: Biology, Chemistry, Further Mathematics, Physics, Mathematical Methods, Psychology & Specialist Mathematics

Fees: **Upfront Payment (face-to-face courses):** \$990 per Unit (half year)

Periodic Payment (face-to-face courses): \$60 per week for 13 weeks (with a \$260 deposit on enrolment)

Online Courses: \$545 per Unit (half year)

What Sets Us Apart?

- Our Master Classes have been developed by teachers
- Instructors are qualified, experienced VCE teachers who are current or recent VCE exam markers (VCAA assessors)
- Notes are detailed and fully comprehensive
- Notes are written by VCE teachers and VCAA assessors
- Classes are recorded and can be accessed 24/7
- One-on-one tuition before and after class
- 29 years experience delivering VCE programs
- An unrivalled history of outstanding success

Many of the questions in the Master Class notes appeared in the actual VCE exams!

Student – Sacre Coeur

Nothing Beats Experience. Except More Experience.

With so much **pressure and competition** in the VCE, you can't afford to make the wrong choice when choosing the best organisation to enhance your VCE studies. TSFX has **29 years of experience** in delivering VCE programs so you can be confident that we have a genuine understanding of what's required to excel in the VCE.

Trust Your One Chance With TSFX.

It's taken you 12 years of hard work to get to where you are today. And you've only got **one chance** to get your VCE right.

TSFX has helped over **150,000** students improve their marks and secure a place in the course of their dreams. Our programs are based on a **unique system** that ensures you receive the best opportunities to maximise your VCE marks. We believe that, given the right opportunities, guidance and support, **EVERY** student has the potential to **excel** in their studies.

Join us at TSFX and make your study efforts count.

TSFX has transformed my dreams into realities.
