UNIT 2 EXAM REVISION LECTURES 2021

**THE FASTEST WAY TO PREPARE
FOR YOUR EXAMS!**

Tuesday 28 September – Friday 1 October 2021

Voted # 1 for Best Quality Lectures & Subject Notes

Unit 2 Exam Revision Lectures

Ace Your Unit 2 Exams!

Save huge amounts of **stress and time** before your exams by having an experienced VCE teacher with a different perspective guide you through the revision process.

Our '**VCE Exam Revision Lectures**' have been designed with this purpose in mind, and to make sure you have the skills and information you'll need to perform to the **highest possible standard** in your end of year exams.

Developed and delivered by qualified VCE teachers who are official VCE exam markers (VCAA exam assessors), not inexperienced university students, these lectures will **definitely** improve your Unit 2 marks!

Dates: Tuesday 28 September – Friday 1 October 2021

Live Streamed & Interactive

Our '**Unit 2 Exam Revision Lectures**' are being delivered as fully interactive, live-streamed online classes using state of the art technology systems and software applications – ensuring students get the best possible learning and viewing experience. Each lecture includes:

- Real time audience participation
- Q & A sessions with VCE Exam Assessors
- Chats, polls, challenges, competitions and quizzes
- Live support

Students will be given unlimited **24/7 access** to a recording of their enrolled lectures they've completed their exams. **No other** program gives students such extended access to their lecture recordings.

What Will be Covered?

- You'll comprehensively revise examinable materials in a **fast** and **effective** way.
- You'll focus on the more difficult sections of the course and work through the types of applications that aren't answered well in exams.
- You'll fill in gaps in knowledge and correct theoretical misconceptions that result in lower exam marks.
- You'll work through **key exam-style questions** and learn to recognise potential sources of error, as well as the **tricks and traps** that could appear in your exams.
- You'll practice dissecting and **analysing questions** and develop techniques to help you answer questions you haven't seen before.
- You'll learn new problem-solving strategies and strengthen exam skills so you can secure **every possible mark** in your exams.

Detailed information regarding the topics that will be covered can be found at www.tsfx.edu.au/exams.

"Very, very fantastic. Extremely helpful. The notes will easily half my study time and double my chances of getting a great score. The lecturers were both brilliant."

Student – St. Patrick's College

Mastering the Exams

Valued at \$150.

See Back Page for details.

How Do I Enrol?

Please complete the online enrolment form at:

www.tsfx.edu.au/exams or call our office on

03 9663 3311 between 10am and 5pm, Monday to Friday.

Subjects

Unit 2 Chemistry (2 Parts: 6 hours)

During these lectures, you will thoroughly revise the following topics: Structure, bonding and properties of water, solubility curves, specific heat capacity, latent heat, features of and the stoichiometry of gravimetric, acid-base and redox reactions, concentration and unit conversions, the pH scale, spectroscopy (colorimetry/visible spectroscopy & AAS) and chromatography (HPLC).

Unit 2 English (2 Parts: 6 hours)

These important lectures will focus on the skills and techniques you'll need to achieve high marks in the two areas of study that make up Unit 2.

AOS 1 – Reading & Comparing Texts: You will explore the ways authors convey ideas, issues and themes in texts (such as structure, settings, events and characters) and the features of comparative analysis. This lecture will also focus on the elements of high scoring comparative text responses, how to structure your comparative essay in the exam, auditing and editing, common comparative text response problems and what teachers expect from students aiming for the higher marks.

AOS 2 – Analysing Argument: You will extend on your ability to dissect and present your analysis about how points of view are presented in both written and visual texts, and learn how to write controlled, high quality responses which present arguments and points of view using language that is specific to the exam assessment criteria. You will also investigate the ways persuasive language is used to express an argument, how authors construct arguments to position audiences, as well as structure, conventions and relevant metalanguage.

Unit 2 Maths Methods (2 Parts: 6 hours)

These lectures will focus on the following topics: Exponential, logarithmic, circular and inverse functions (including graphing and solving equations), differentiation techniques, applications in differentiation (rates of change, applications in curve sketching, worded maxima/minima questions), integration techniques, definite integrals and using differentiation and integration to solve applications in kinematics.

"I thought the online lectures were done really well. Even though I wasn't there in person, I wasn't missing on any educational experience."

Student – Belmont High School

"Definitely recommend TSFX over other lectures."

Student – Melbourne Grammar School

What You'll Get (All Subjects)

- The **highest quality** instruction from experienced VCE teachers who are current or recent markers of the VCE exams (not unqualified university students).
- **Engaging and interactive** teaching that caters for different learning styles.
- Unlimited access to a recording of the audio-visual presentation for each enrolled subject until after your subject exam(s).
- Detailed, comprehensive **A+ notes** that include every key examinable concept, clear and concise explanations, fully worked examples with step-by-step instructions and exam watch-outs – saving you **countless** hours in study time.
- A large collection of exam-style questions so you can consolidate and **extend on** taught skills and concepts at home.
- Friendly, engaging, motivating teachers who are **committed** to seeing you achieve the highest possible exam marks.
- The skills and information needed to perform to a **high standard** in your Unit 2 exams.

Benefits of Attending

- Get the most from your school holidays.
- Prepare for your exams in **the fastest** and most **painless way!**
- **Reduce stress levels** and study loads in the challenging weeks before your exams.
- Save **countless hours** in study time (it's much faster to let an experienced teacher take you through course materials than working through them on your own).
- Watch edited recordings of your lectures as many times as it takes for you to feel confident with the topics that will be examined, and to **fast track** your exam preparations.
- Leave our lectures having made a **big impact** on your exam preparations, **feeling confident** about what you know, informed about what you need to correct, and in the right frame of mind for independent study.
- **Maximise** your examination marks.

A few hours logged in to a TSFX exam revision lecture can really make a **huge difference** to the time you spend studying, and your Unit 2 marks!

What Sets Us Apart?

Exceptional Teachers

Instructors are qualified, experienced VCE teachers who are current or recent **VCE** exam markers.

Recorded Classes

Each lecture will be recorded, fully edited and made available to students 24/7 until the day after their subject exam(s).

Unparalleled A+ Course Notes

No other VCE program provider **comes close** to matching the quality and depth of materials that are given to students who attend TSFX programs! As an example, students attending our Unit 2 Maths Methods Exam Revision Lectures receive over 220 pages of notes and 160 exam-style questions! Our course materials are prepared and updated by qualified, experienced VCE teachers each year – **not** inexperienced university students.

No Superficial Overviews

Our programs are longer in duration, ensuring you get the **best instruction and value** for your time and money, as well as the **highest possible** VCE marks.

We Get Results

TSFX offers a **proven track history** of unrivalled VCE success. We get results, and we can make a significant difference to your VCE marks.

92.39

FREE

Mastering the Exams – Free!

'**Mastering the Exams**' is a unique program exclusive to TSFX. Presented by one of the country's most respected study skills specialists, this lecture guarantees to improve study habits, boost exam confidence and maximise your exam marks.

When you attend '**Mastering the Exams**' you'll learn how to prepare for your exams in the fastest and most effective way. Other topics you'll cover include: the most effective learning and revision techniques, the **biggest mistakes** students make when preparing for their exams, how to construct an effective exam study timetable, why students don't get the marks that reflect the time and effort they invest in their studies, the **smartest way** to work through past exam papers, mastering the art of '**exam chess**', maximising concentration & memory, Pareto implications, combating stress, exam anxiety and "mind blanks", and little known, but highly effective, scientifically backed strategies that will **greatly improve exam marks**. Held over two consecutive nights, this 4 hour live streamed and interactive online program **will not** disappoint.

Final Session for 2021!

Dates: Monday 13 & Tuesday 14 September 2021

Times: 6.30pm to 8.30pm each evening (total length is 4 hours)

Cost: Lecture Only – **FREE**
Lecture & Notes – **\$15**

Lecturer Details

Chemistry:

Alex Colussa (*Trinity Grammar School*) & Phil Ponder (*Penleigh Essendon Grammar School*).

English

Catherine Hart (*TSFX*) & Carolyn Stone (*Beth Rivkah College*).

Maths Methods

David Rodgers (*Camberwell Grammar School*), Irena Jaskula (*TSFX*) & Mal Widdicombe (*Geelong Grammar School*).

Learn From the Best

To ensure you receive **every possible advantage** in the VCE, our lectures are prepared and delivered by hand-picked, qualified, experienced VCE teachers from top ranking schools (not university students). Our teachers include authors of VCE textbooks, writers and markers of your VCE exams, as well as leading experts in their subject fields.

Note: The majority of university students who present VCE lectures and tuition classes **have not** received formal instruction in most of the topics they're teaching. These students graduated before many VCE subjects underwent significant changes to their Study Design and are self-taught, using limited information that doesn't cover the scope required for the higher VCE marks.

Experience is the best teacher, and an important asset for students studying Year 11 and Year 12.
