# VCE Summer School – Unit 1 & 3 Head Start Lectures

Get Ahead. Reduce Stress. Maximise Your VCE Marks.

The summer break gives students the opportunity to get ahead in their studies and reduce stress levels and study loads in 2023.

Working through materials on your own, however, can be tedious, time-consuming and ineffective. Our 'Summer School – Head Start' program has therefore been designed to help you secure the best possible advantage in the VCE in a time-efficient and relatively painless manner!

**Bonus Lectures**  
Valued at \$400.  
See Back Page for Details.

**FREE**

## What Will be Covered (All Subjects)

- You'll work through key Unit 1 & 3 topics to an **A+ standard**, in a relaxed, step-by-step manner.
- You'll clarify misconceptions that result in the **loss of valuable marks** in SACs and exams.
- You'll cover the more **difficult concepts** (and not just the basic principles).
- You'll work through a wide variety of SAC and exam-style questions and learn to recognise potential **sources of error**, as well as the **tricks and traps** that could appear in assessments.
- You'll learn the problem-solving skills that are needed to secure the **higher SAC and examination marks**.
- You'll receive **valuable advice** from leading VCE teachers who are current or recent VCE exam assessors, giving you an **edge** in the VCE.

Topics that will be covered during each lecture can be found at [www.tsfx.edu.au/ss](http://www.tsfx.edu.au/ss).

## What You'll Get (All Subjects)

- The **highest** quality instruction from **experienced** VCE teachers who are current or recent VCE exam markers for VCAA (not unqualified university students).
- Between 6 and 12 hours of tuition in each enrolled subject.
- Engaging** and interactive teaching that caters for different learning styles.
- Unlimited** access to a recording of the audio-visual presentation for each enrolled **lecture** until 30 June 2023.
- Detailed, comprehensive **A+ notes** that include clear and concise explanations, fully worked examples with step-by-step instructions and exam watch-outs – **saving you countless hours in study time**.
- A large collection of exam-style questions to further **consolidate** and **extend** on taught skills at home.
- The skills and information you'll need to perform to a **high standard** in your SACs.
- Friendly, engaging, passionate and committed teachers.
- You will receive **key SAC and exam insights** that only a VCE exam marker can provide. (Students taught by VCE exam assessors **DO have an advantage** over other students).

## Benefits of Attending

- **Get the most** from your school holidays.
- Ensure you have the **correct foundations** in place so you can cope with the volume and difficulty of 2023 course materials.
- Save **countless hours** in study time (it's much faster to have an experienced teacher take you through course materials than working through them on your own).
- Watch and listen to **recordings** of your lectures **as many times** as you like before your school-based assessments.
- Make **school easier** and more enjoyable.
- **Reduce** the time spent on homework and SAC preparation.
- Get **higher** SAC and examination marks.
- Maximise your **subject ranks** and your moderated SAC marks.
- Increase confidence and motivation levels.
- Get a **huge advantage** over your state-wide VCE peers.

## Learn From the Best

To ensure you receive **every possible advantage** in the VCE, our lectures are prepared and delivered by hand-picked, qualified, experienced VCE teachers from top performing schools (not university students). Our teachers include authors of VCE textbooks, writers and markers of your VCE exams, as well as leading experts in their subject fields.

**Note:** The majority of university students who present VCE lectures **have not** received formal instruction in most of the topics they're teaching. These students graduated before many VCE subjects underwent significant changes to their Study Design and are self-taught, using **limited information** that **doesn't** cover the scope required to prepare Year 11 and 12 students for the **higher** VCE marks. **Experience** is the best teacher, and an important asset, especially for students studying Unit 3 & 4 subjects.

## WHY US

You've spent almost **13 years** getting to this point, so **don't risk** your final marks on "good enough" when you can get access to some of the state's best VCE teachers and an organisation that has a proven track history for VCE success. **We get results** and can make a **significant difference** to your VCE marks.

## Topics Being Addressed

### Unit 3 English Head Start Lectures

**Part 1** Reading and Creating Texts (Total – 2 Hours)

**Part 2** Analysing Argument (Total – 3 Hours)

**Group A Texts** *Much Ado About Nothing, Nine Days, Rainbow's End & Station Eleven*

**Group B Texts** *Pride & Prejudice, Sunset Boulevard & Women of Troy*

**Group C Text** *All the Light We Cannot See*

### Unit 3 Prerequisite Lectures

As the marks received in Unit 1 and 2 don't directly contribute to an ATAR, many students dedicate the **minimum** amount of **time (and effort)** to study, **incorrect in their belief** there will be plenty of opportunities to catch up in Year 12, if required. Students who start their Unit 3 studies lacking strong foundations in key Year 11 concepts will find it **difficult to cope** with new course materials and will obtain **lower SAC marks** and subject ranks than otherwise possible.

During our '**Unit 3 Prerequisites Lectures**' you will revise, strengthen and develop a deep-level understanding the critical Unit 1 and Unit 2 concepts that are the key to performing to a high standard in Unit 3. Emphasis will be placed on the more **challenging concepts** as well as the topics that will be the focus of your Unit 3 SACs.

### Other Unit 1 & 3 Subjects

Students will obtain a comprehensive coverage of course materials as detailed in the 2023 Study Designs.

**Topics that will be covered in each subject can be found at [www.tsfx.edu.au/ss](http://www.tsfx.edu.au/ss).**

**97%** of students who attended a recent Summer School indicated they would recommend this program to future students.

"Lectures were fantastic. They got me ahead of my peers and understanding where I can improve."

## Bonus VCE Lectures!

### Bonus Lecture 1: Crafting A+ English Essay Responses

It's been repeatedly shown that the students who can skillfully shape their ideas and arguments, use language appropriate to the chosen audience, context, form and purpose, and **show sophistication and flair** in their writing will receive the higher English marks. This requires **high level analytical thinking and writing**, and both of these skills are essential to all aspects of VCE English.

Our '**Crafting A+ English Essay Responses**' lecture will provide systematic, **foolproof strategies** that will enable you to develop and hone strategies to think beyond the obvious, and develop well crafted, articulate analytic arguments. Detailed examples of paragraphs and essays that demonstrate the **differences between A and B grade responses** will be investigated, and you will leave this lecture with clear strategies that will **greatly improve** your English essay marks.

**Valued at \$200**, this lecture is **FREE and exclusive** for students attending our VCE Summer School 2023 – Unit 1 and/or Unit 3 Head Start Lectures. (Fee for notes is \$15).

#### Dates & Delivery:

**Part 1:** Saturday 14 January 2023  
(3:30pm to 5:30pm – In Person)

**Part 2:** Friday 20 January 2023  
(9am to 11am – Live Stream)

**Vacancies are strictly limited.  
Don't miss out!**

### Bonus Lecture 2: Maximising your VCE marks

This **unique lecture** is designed to motivate, empower and organise students and ensure you have the skills and information to reach your full potential and get the **highest** possible **ATAR** result.

Join us in this **two part** program and discover:

- The **7 secrets** to VCE success.
- Key strategies used by past students to **excel** in the VCE.
- The most effective and **time-saving** learning techniques.
- How to retain learned materials in memory for longer periods of time.
- Foolproof techniques to **manage stress**.
- Planning **effective** daily study timetables.
- Effective concentration strategies and **successful** productivity hacks.
- How to develop **exceptional** time management skills.
- Optimising cognitive function.
- The **smartest way** to prepare for your SACs and exams.
- Concrete techniques that will greatly **improve marks** and your **subject ranks** at school.

**Valued at \$200**, this lecture is **FREE and exclusive** for students attending our VCE Summer School 2023 – Unit 1 and/or Unit 3 Head Start Lectures. (Fee for notes is \$30).
