# VCE Master Classes by TSFX. The Ultimate Advantage in the VCE.

Our VCE Master Classes are a **highly comprehensive, integrated** weekly tuition program designed to ensure students reach their **full potential**, be that a two grade improvement or the **elite A and A+ scores**. This highly regarded program also enables students to complete their exam preparations well before their state-wide VCE peers, **greatly reducing stress levels and study loads** in the challenging weeks before their end of year exams.

This program **builds on** the teaching that takes place in schools, giving students the opportunity to revise, reinforce and extend on key skills and concepts, and to systematically develop **strong problem-solving skills** and **exam techniques** – skills that are **essential** when aiming for the highest possible VCE marks.

**Venue:** University of Melbourne (Elizabeth Blackburn School of Sciences, Parkville)

**Dates:** Saturday 15 July – Thursday 21 September 2023

your SACs & exams*

## Out-Rank Your State-Wide Peers.

When you attend our **VCE Master Classes**, you will:

- Revise and **extend** on the work covered at school to VCE examination standard.
- **Master concepts** that students find difficult and that have been poorly answered in past exams.
- Learn techniques that will help you to **confidently answer** the different types of questions that appear in the VCE exams.
- Work through **a huge collection** of questions that are likely to appear in SACs and exams, and systematically prepare for the challenging **analysis-style** applications that make up about **30%** of each subject exam.
- Master the **tricks and traps** that could appear in your SACs and exams, and learn how to dissect and process the **harder extended response style questions**.
- Learn how to **structure perfect answers** that reflect the **marking schemes** used to assess the VCE exams.
- **Regularly revise** important concepts so you don't need to **waste valuable time** re-learning topics before your SACs and exams.

*Includes Unlimited 24/7 Access  
to Recordings of All Classes in  
Your Enrolled Subjects!*

*My students often say that  
there was at least 20 marks  
worth of questions on the  
exam that they can thank  
TSFX for, and they feel they  
have a real edge on SACs.*

# The Numbers Don't Lie.

If you're determined to get the best possible results, our **VCE Master Classes** won't disappoint!

Year after year, students attending our **Master Classes** achieve **amazing results**. As an example, **89%** of our 2022 students achieved an ATAR of **90 or above**, even though most had previously received average or below average marks! The median ATAR achieved was **95.25** placing **50%** of our students in the **top 4.75%** of all VCE students.

Year	Average ATAR	Median ATAR
2022	94.95	95.25
2021	94.70	95.45
2020	93.23	94.70
2019	95.17	95.65
2018	93.23	95.80
2017	94.43	95.75
2016	93.29	95.00
2015	93.56	96.85
2014	93.90	94.80

## Learn from the Best.

To ensure you receive **every possible advantage** in the VCE, our Master Classes are prepared and delivered by hand-picked, qualified, experienced VCE teachers from top performing schools. Our teachers include authors of VCE textbooks, **writers and markers of the VCE exams**, Chief Assessors and Assistant Chief Assessors, as well as leading experts in their subject fields. Their wealth of experience is **priceless**.

Not only do our Master Class teachers have extensive experience in the VCE, they have demonstrated a long and consistent history of **achieving outstanding student results**. They know exactly how to motivate students **to pursue their best** and unlock their **highest potential**. Our teachers are also trained to teach different types of learners, and how to maximise learning opportunities using **innovative pedagogical models** and approaches – skills that can only be acquired through formal teaching degrees.

*Experience is the best teacher, and a crucial asset at the end-game stage of 12+ years of schooling.*

## A Significant Edge. Yours for the Taking.

There is **NO DOUBT** that students taught by VCE exam assessors have a **significant advantage** when it comes to their SAC ranks, and especially in terms of their examination marks. VCE exam assessors have access to important information that isn't released to other teachers – information that can have a **significant impact** on your ATAR and study scores. It is this type of information that can be the difference between the **ATAR you want** and the **ATAR you receive**.

You will therefore be mentored by teachers who have experience in **writing and/or assessing** the very exams you'll soon sit.

**TSFX** is unmatched in the quality of notes and presentation.

# The Elephant in the Room.

---

*Can a recent VCE graduate prepare students for their VCE assessments to the same standard as a qualified experienced VCE teacher?*

To give you the best chance of success, we use qualified VCE teachers and VCE exam markers – **not** unqualified, inexperienced university students.

A high ATAR or study score **does not equip** a recent VCE graduate with the knowledge that's required to prepare students for their SACs and exams. As an example, a student who obtained a 45 study score in Mathematical Methods **only** answered about **79% of Exam 2 correctly!** Recent VCE graduates **can't** teach you how and where marks are awarded, which terms or statements must be included in exam responses, and alternate answers that would also receive full marks. This information is **restricted** to VCE exam markers and can make a **HUGE DIFFERENCE** to your VCE marks.

Knowing how the exams are marked also gives VCE exam markers the ability to guide you through the exam preparation process in **the quickest and most effective** way. You'll spend your time revising what really matters, and you **can't** get that kind of guidance from recent high school graduates who have **NO teaching experience**, and who **don't have access** to the detailed insights our teachers provide.

## It All Hinges on Your VCE Examination Marks.

---

A **strong exam rank** can easily compensate for a less than desirable SAC rank – creating opportunities for students aiming for the **highest possible ATAR** result.

However, it takes time and lots of practice to develop the exam techniques and problem-solving/application skills which are essential when aiming for the higher examination marks. Students who leave this process to Term 4 **will not** perform to the best of their ability in the exams. Our Master Class students will therefore formally start developing the **higher order** examination skills from the beginning of each semester. In addition, you will receive **complimentary access** to up to 10 hours of **'VCE Exam Booster Classes'** that are specifically dedicated to the **mastery** of exam techniques and **higher level** analytical skills. These classes will also teach you how to identify and process embedded **tricks and traps** as well as the VCE examination **marking schemes**.

These important classes are being delivered by experienced VCE exam markers and Chief/Assistant Chief Assessors – **the only people** who actually know how the VCE exam papers are marked.

## Unparalleled A+ Course Notes.

---

You will receive detailed and comprehensive **A+ notes** that include **every key concept that could be examined**, clear and concise explanations, fully worked examples with step-by-step instructions, and a large collection of potential examination questions – saving you **countless hours** in study time.

## Recorded Classes.

---

As we **record our classes** you won't ever fall behind if you miss a week (or two). You can also watch a class as many times as it takes for you to feel confident with what was covered. Furthermore, when it comes to your SACs and exams, our recorded classes offer a **fast and effective way** to revise for these important assessments.

Students who prefer face-to-face instruction are welcome to attend repeat classes in their enrolled subject(s) at **no additional charge**.

**Median ATAR in 2022 = 95.25!**
